The territorial board of medical examiners met in the city hall last night pur suant to call, for the transaction of business, principally in examing and approving or disproving the certificates of territorial practitioners.

The following circular, issued by Dr. Ernest Crutcher, yf Great Falls, the secretary of the board, has been sent to all known practitioners:

known practitioners:

"Dear Sir: In accordance with the terms of an act passed by the sixteenth legislative assembly, entitled 'An act to regulate the practice of medicine in Montana,' known as house bill No. 6, you are hereby notified that the board of medical examiners thereby created will be in session on the 18th day of April, 1889, at Helena, at which time diplomas will be examined and passed upon, and those not graduates examined upon the branches of study, as required by said act. In either case a fee of \$15 must be paid in advance to the secretary of the board. oard.

worthy of a much larger town.

Many familiar with the magnitude of this work doubt that the large swimming pond, 150x300 feet in size, and the other at tractions now under way, will be completed before the season is over. Scores of workmen are employed in pushing this resort to completion. The hotel, as it is, gives promise of being the handsomest, in an architectural point of view, in the territory. The swimming pond will be surrounded with a stone lining, and the greatest depth will be about eight feet. The water from the warm springs, a few hundred yards above the hotel, will be conducted in pipes to the pond, which will form the greatest plung bath in Montana. The work will all be finished this season. The Montana Central managers have put on a daily train to and from the hotel. From all appearances there will be some lively competition between the Motor and Montana Central companies in bidding for patronage to the hotel when completed.

From the conflicting stories told last night the chances are the smooth pair will suffer.

LOOKS LIKE A ROMANCE.

A Young Girl Disappears, but it is Thought She Has Eloped. Residents down the valley near Diaaond gulch are all agog over the sudden lisappearance from their midst of Farmer Kelly's 16-year-old daughter. The general belief is that the girl eloped and effected her escape in an entirely original way, and to add more to this belief comes the statement that a young man of the neighbor-

nooe is also missing. The family does not seem greatly conterned and the story first started that there was foul play connected with the girl's sudden departure is discredited. girl's sudden departure is discredited.

It is said that on Sunday night about the hour of retiring, the girl went to her room to prepare, to all intents, for slumber, and when partly disrobed, came down stairs and passing through the sitting room where the family had gathered, walked out of doors. Shortly afterwards, when all were about to retire, the mother missed the girl but her search failed to find her. The girl had ample time to don other garments which she might have
